EDUCATION

University of Michigan

Ann Arbor, MI

Bachelor of Science in Engineering, Computer Science

May 2028

GPA: 3.96 / 4.00

Coursework: Data Structures & Algorithms, Web Systems, Intro. to Computer Security, Intro. to Computer Organization, Computer Science Pragmatics, Introductory Data Science, Positively Leading People & Organizations

Awards: Michigan Council of Women in Technology Scholar, Branstrom Freshman Prize, National Merit Scholar

WORK EXPERIENCE

Student Life Technology Services

Ann Arbor, MI

Computer Consultant 2

Jan 2025 - Present

- Designed and researched custom JavaScript-based Google Apps Script solutions to automate department workflows and organize internal data, mitigating manual entry and human error.
- Maintained school devices and updated technical workflows, coordinating tasks to ensure maximum efficiency and eliminate classroom technology disruptions
- Led interviews and directed onboarding to accelerate team integration and streamline the hiring experience.

PROJECT EXPERIENCE

Connections

Walled Lake, MI

High School Hackathon Project, 2nd Place Winner

May 2025

- Engineered a full-stack interview preparation web application using an HTML/CSS/JavaScript frontend and a Node.js backend, enabling real-time practice and progress tracking for active job seekers.
- Integrated the Ollama LLM API into a custom Node.js backend to generate and evaluate mock interview prompts, delivering instant, tailored feedback to user responses.

Other Hackathon Participation

Michigan

Hackathon Participant

May 2025 - Present

- MHack 2025 Participant, where I helped prototype a web app to help people better manage Type 2 diabetes.
- Engineered and pitched working software prototypes under high-pressure time constraints, securing top-tier placements across multiple competitive regional hackathons.
- Placed 4th out of 50 participants at the Kettering University 'Crack the Code Challenge' by rapidly researching and integrating unfamiliar frameworks to enhance core application features.
- Won 2nd place consecutively (2024 & 2025) at the WLCS District Hackathon by combining technical development with structured project pitches to deliver functional, high-impact solutions.

LEADERSHIP EXPERIENCE

Girls in Electrical Engineering & Computer Science

Ann Arbor, MI

Event Logistics Committee Member

Aug 2025 - Present

- Structured operational timelines for Fall club elections and Winter committee applications, ensuring smooth leadership transitions and consistent member recruitment.
- Organized targeted social networking events for organization members, increasing peer-to-peer engagement and fostering an inclusive community culture.
- Analyzed engagement and attendance metrics to deliver data-backed statistical assessments of GEECS events, optimizing future club decisions based on historical success.

SKILLS

Tech stack: Python, C++, React, Javascript, HTML, CSS

Certifications: IBM SkillsBuild Cyber Security, FreeCodeCamp Responsive Web Design,

ACTIVITIES

WolvSec, Club Member

Aug 2025 – Present

MCWT, Volunteer

Aug 2025 – Present
